

## HydraSand

Multi Head Sanding Disc

The HydraSand is 15% more productive than leading competitive units.

1. Six 5" drive pads.
2. Backer pads provide smoother sanding, but may be removed to increase aggressiveness.
3. Strong, six-bolt clutch plate construction transfers torque without the use of plastic gear assembly.
4. Isolator/dampener provides superior handling.
5. Large air slots allow for premium dust collection.
6. Steel encased bearings for added strength and performance.
7. The raised bearing shaft allows for quick, wrench free, pad removal.

Because Pride Still Matters.
